Summary

Software engineer with a Psychology background and a passion for music and art, which contribute to my desire to help others through therapeutic modalities. Striving toward a greater truth found through innovative problem solving and collaboration, I seek to produce applications that solve real world problems. My compassion and ability to connect and deeply understand others beyond the superficial helps me find a greater purpose.

Technical Skills

Languages: Javascript, Python, HTML5/CSS3
Additional Technologies: Web & Third Party APIs, JQuery, Bootstrap, MongoDB, Express, Node.js, React, Sequelize, SQL, ORM, MVC

Projects

InMarket Real Estate Search Application
Github link: https://github.com/RLAQUEA/InMarket-Real-Estate-Search-App
Deployed site: https://fierce-waters-10639.herokuapp.com/
